**Energy efficiency and renewables - Co-ordination workshop**

**ISO Central Secretariat, Geneva, Switzerland - Monday the 7th of May, 2012**

Dear Sir or Madam,

ISO Central Secretariat has a pleasure to invite you to participate in a co-ordination workshop in the area of Energy efficiency and renewables, to be held at ISO Central Secretariat in Geneva, Switzerland on Monday the 7th of May, 2012.

As ISO's activities in the area of energy efficiency and renewables are being carried out in many different committees this co-ordination workshop will help to raise awareness of ISO's current and future contribution to the subject. It will be an opportunity for you to present specific projects from your committee, exchange information and share knowledge with other participants during the round-table discussions. Representatives from the ISO/TMB Strategic advisory group on energy efficiency and renewable energy sources (SAG-E) will also be participating in this workshop.

Please find attached the draft programme as well as the SAG-E Executive summary and recommendations to the TMB (September 2011). Further information will be circulated in due course.

Could you please confirm your participation by the 10th of April, 2012 to Ms. Isabelle Vega ([vega@iso.org](mailto:vega@iso.org)) and inform whether you would be presenting a specific project in your field of expertise.

We are looking forward to a successful co-ordination workshop and welcoming you to ISO Central Secretariat.

With kind regards,

A handwritten signature in blue ink, appearing to read 'T. Vyze', is written over a faint, larger version of the same signature.

Trevor Vyze
