

Workshop NANOSAFETY AND AIR FILTRATION

Thursday 12th June 2014
Castello del Valentino
Viale Mattioli 39 - Torino
Salone d'Onore

PROGRAM

14:15	Registration of Participants
14:30	Welcome
14:35	Prof. David Y.H. Pui (University of Minnesota) "Nanoparticles Environmental Health and Safety (Nano-EHS) and its Mitigation by Filtration"
15:10	Prof. Jing Wang (ETH Zürich) "Dispersion and measurement of carbon nanotubes and their release from nanocomposites"
15:45	Prof. Bice Fubini (Università di Torino) "The complex interplay between physico-chemical features and cells in nanotoxicology"
16:20	Prof. Debora Fino (Politecnico di Torino) "Emission of nanoparticles from car components not associated to combustion processes"
16:55	Prof. Paolo Tronville (Politecnico di Torino) "Assessing the performance of air cleaning equipment in removing nanoparticles"
17:30	Discussion and conclusions

Registration: eventi@polito.it
